7) The Dy Com may be asked to ascertain & report if the Kunigal Municipal Council is agreeable to lease the loan on the above terms

9) Yes
9/6.

8) The calculation of Rs 8000 referred to is made on the assumption that Govt will sanction the recommendation for waiving the Cost and Tools & Plant charges amounting to Rs 1620/- The Fin Secy has been objecting to such waiving in a similar recent case, on the ground that this means extra expenditure to Govt So far as the work in question is concerned, a sum of Rs 1500 has been sanctioned out of the Town Improvement Grant for the Current year, and if the charges referred to are waived the total Town Contribution of Govt will be Rs 1500 + 1620 or 3120, against the estimate of Rs 11,000 This will not be much in view of the fact that Govt have been generally contributing a moiety of the cost of such works.

	File No	304	of 193	General and Revenue Secretariat

Letter no. A3.C 3142/32-33 of 14-7-33 from the Chief Engineer, Madras requesting that the Municipal Council is agreeable to take up the loan on the conditions imposed.

---

18) See also reference paras 9 & 10 of the notes supra

2nd 3/7/34 19) The maintenance charges of the scheme amount to Rs 2 1000 a year the records do not disclose how the Council proposes to meet this charge. A perusal of the budget for 33-34 discloses that the Council is now spending a sum of Rs 10 8 0 per year on account of water maintenance there is no information as to whether the present charges will cease when the project in question is completed. Definite information on these points will have to be obtained. A

20) As regards the loan of Rs 8 000 required, the Council may perhaps be kept to pay the same in 20 annual equated payments. If this is done the annual demand B

Serial No

on this account would be Rs 7,358 x 8-0-0 = Rs 588.

21) The normal income of the municipality is Rs 11,005 and its normal expenditure is Rs 10,657. The annual surplus is Rs 350 only and the municipality will have to raise a further sum of at least 250 Rs annually for discharging the loan.

C.

22) Regarding the Govt Contribution towards the Scheme, reference is invited to the note in para 8 supra. The Executive Engineer has stated in a similar case that the Water & Govt Tools charges should take the form of a Grant in cash. So, the sum of Rs 1620 representing these charges will have to be given out of the Water Supply or Town Improvement Grant for 1933-34, along with the sum of Rs 1500 which has been withdrawn & allotted to the Dodballapur Scheme.

11) Draft G.O. submitted for consideration

12 Please get the draft typed as revised

13/10

13) Typed draft submitted

14/10

15 The draft is put up for consideration

16 The Director of Health has not allotted any sum towards the Govt share of the cost of the work in the proposals made by him for distribution of the Water Supply & Town Improvement grant this year. A sum of Rs 1500 which was allotted last year for the work was asked to be withdrawn, on the recommendation of the Health Dept, as the work was not ready to be taken up. It is not known if the amount has been actually withdrawn. If not, the amount to be given by Govt in addition to the Govt Tools & Plant charges will have to be met this year from the reserve

Serial No

of Rs 20,000 proposed to be kept out of the Town Improvement grant ... Orders on this point may perhaps come later on, ~~after~~ and in the new para 3 of the draft request the Dir of Health to point out the source from which the Govt share of the cost is to be met. Or the Dir may be consulted now along with us.

4.) Regarding the capacity of the Mcl to pay ~~loan~~ the annual maintenance charges & the instalment ~~due~~ in respect of the loan of Rs 8,000, reference is invited to the Mc President's letter D/24 8 33 to the D.C Tinnevelly

GENL & REV SECRETARIAT 604 13 NOV 1933 MUZRAI.

Serial No	
	57 It is ascertained that this is the first loan of the kind proposed to be given from the Damodar Dam Charge Fund.
X	58 Mun-File No. 340-1931-4 leading to Fin No. 1033-50/Mun-340-19-4 dt. 14.9.30 re grant of loans from surplus funds of Muz. Institutions to local bodies & other Mun. institutions. Reference is invited to the Final Note dt. 9.7.1920 by the then 2nd Member of Council in the file abovecited & especially to paras 3 & 4 in which the principles underlying the grant of such loans is discussed.
N	
X	59 In the light of the above facts the grant of the loan in question does not seem to be inexpedient.
	60. There is surplus balance at the credit of the Damodar Dam Charges — Rs 12,347/- in Cash & Rs 47,700/- in investments.
	Submitted with reference to para 56 supra
	Recd 14/12/33 J.I. Please speak to me 14/12/33
	62- So far as the question of granting loans from surplus funds of Mun. Institutions is concerned it is clear from Mun. File No 340-19 Pol 1-4 (Flag X) that such loans may be given.
	63. In the present case it is seen that the Municipal Municipality as it stands at present is getting taxes enough income

NOTE—Contn Sheet

Grant of loan from the Damodar Kiungal Municipality. 604

File No 301 of 1932 — General and Secretariat

to maintain itself, provided the assessment is collected properly. If Water Taps is given the only additional assessment it can levy is Water rate. This will bring in only Rs 750/-. A kind reference to the Board's letter dt 24.8.33 to the D.S. Trichur (Flag K) will show that even the maintenance charges in connection with the Water Taps cannot be borne in full by the Municipality as it is estimated to cost Rs 2000/- against Rs 1080/- which the Municipality can give. This means extra cost of Rs 920/- as against Rs 750/- excess income expected by levying Water rate.

Additional octroi duty is expected to bring in Rs 500/- only. The construction of the market building is only a pious purpose when the Municipality will not be able to undertake without funds. When they have no funds for water taps they have to borrow. Such a proposal of this kind can be accepted as such clear

As it is the Municipality appears to be in poor to be able to repay the loan and it is only on which request for postponement of instalments, remission of interest etc will be made, once the loan is granted

The D.S. has not stated what the particulars and rights it is receiving being maintained by these charities. It seems desirable to get this info as also info re its monthly cost etc

16/12/33

Jt Secy / In a case like this, if the Damodar Das Charity lends money at all it must be only as an investment and has no interest in the Kiungal Municipality.

Grant of loan from the Damodar Valley Chanty Fund to the Kirinjal Municipality [74]

General and Revenue Secretariat | Frl File No 3021 1606/V2179 of 1932 | [App F III—2

Serial No

(8) The present proposal is not at all attractive as an investment proposition. The Municipality is by no means in a flourishing condition and its repaying capacity is ~~far from~~ doubtful, the rate of interest 4% is too low and the period 20 years too long. If the Charity wants to invest its funds it has certainly better ways of doing so than lending it to this Municipality. It is also found that this is the first time a proposal to lend from this fund is the sanctioned. I would therefore submit that the (9) Fund may be let alone and if the Municipality deserves a loan it may be given by Govt on the usual terms of interest (minimum of 5½%).

9.3.34

Serial No

83 As already stated by me in paras 6a and 69 of the Notes, it is not desirable to agree to the grant of a loan from the Damodardoss Charity Fund

84 The point for consideration is whether a loan of Rs 8,000/- can be granted by Government to the Municipality and, if so, under what terms or conditions

85 If Government have to give a loan, the loan should bear interest at at least 5½ per cent per annum and should be required to be repaid within 10 to 12 years - 5½% is the rate now being charged on all loans to Local Bodies (e.g , Loan for water supply to Holenarsipur) The Municipality will have to pay Government about Rs 1,000/- every year towards Principal and Interest and meet the annual maintenance charges amounting to Rs 2,000/- It is only if the Municipality is found able to meet an annual recurring liability of about Rs 3,000/- it would be desirable to grant the loan asked for

86 The Municipality has pointed out source for a sum of Rs 2,680/- and as explained in paras 79 to 81 of the notes, it is doubtful whether the revenue expected from these sources will be realised to the extent expected, and even if it is realised, how the Municipality will meet the excess sum of about Rs 400/- required has to be ascertained

87 The Cash balance of the Municipality at the end of January 1934 (as per monthly Accounts of the Municipality) is only Rs 189/-, and the sum of about Rs 5,500/- stated to have been invested in the Savings Bank deposits represents grants paid by Government from time to time for various public improvements

NOTE—Contn Sheet

WD 0434—GPB—15 000—12-10-32

(inclusive of Rs 1,500/- paid for water supply) and remaining unutilised. The latter has to be used only for the purposes for which the grant was made and cannot be diverted for other purposes

2. In these circumstances, I would suggest that the Municipality may be informed that Government would consider the grant of a loan of Rs 8,000/- to the Municipality (in addition to the grant of Rs 1,500/- already paid and Rs 1,620/- to be paid) subject to the condition that the loan will bear interest at 5½% per annum and will be repaid within 10 (or 12) years, in annual instalments, if the Municipality can point out definite sources of revenue for the payment of the amount Rs 3,000/- every year (Rs 1,000/- towards loan -- both principal and interest -- and Rs 2,000/- towards maintenance charges)

125 As already stated in my note dated 23rd July 1934, if the scheme is to be sanctioned, the Municipality should be able to meet an extra recurring expenditure of Rs 3,000 per annum (towards repayment of Government loan with interest and Maintenance charges) The Deputy Commissioner states that (1) the income from the shandy which is estimated at Rs 2500 per year will be earmarked for the repayment of the loan, (2) it has been proposed to levy octroi on certain items and this is likely to fetch nearly Rs 500 per year and (3) an income of Rs 750 a year is expected from the water tax which will be required to be levied as soon as the water supply scheme is completed

126 He admits that the closing balance has fallen below the prescribed minimum since 1930-31 The amount held in the S.B.Fixed deposit, viz , Rs 5,000 mostly represents grants paid by Government from time to time for various public improvements (inclusive of Rs 1,500 paid for water supply) and remaining unutilised (vide, my note dated 3rd April 1934) and the latter cannot be utilised for other purposes

127 From the sanctioned budget estimates of the Municipality for 1934-35, it will be seen that the normal income and normal expenditure for 1934-35 are estimated at Rs 14,353 and Rs 14,255 respectively leaving practically no margin for extra expenditure While working out the normal income, the tax on buildings and roads is estimated at Rs 4,500 against the annual demand of only Rs 2,640 (taking into account

arrear collections) and that the income from tolls is estimated at Rs 7,400 (taking into account arrear collections to the extent of Rs 1,000). If the arrear collections are excluded, the normal income will not be sufficient for meeting normal expenditure and the shandy collections expected to be realised (about Rs 2,500 per annum) or a major portion of the same will have to be utilised for meeting normal expenditure and will not be available for the repayment of the loan

The Byelaws proposing to levy octroi on new items are under consideration by Government The water tax, if levied, (at 25% of the Mohatarfa tax) will bring in Rs 650 The total extra revenue on account of octroi and water tax will be only about Rs 1,200 and this will not be sufficient to meet the payments on account of principal and interest on the Government loan and the maintenance charges (aggregating Rs 3,000).

12c) For reasons stated above, I think that the Municipality is at present not able to finance the scheme of water supply and that the scheme has therefore to wait till the finances of the Municipality improve, by the levy of the octroi on new items and other sources The Deputy Commissioner may be asked to renew the proposal after one year, explaining the financial position then.

1112 The financial position of the Municipality as disclosed in the Budget estimates of the Municipality for 1935-36 shows slight improvement. The normal income and normal expenditure for 1935-36 are estimated at Rs 14,086 and Rs 10,642 respectively showing a surplus of Rs 3,444/- This surplus has however been arrived at taking into account arrear collections to the extent of about Rs 2,600 and anticipating some increase under Toll and other heads The Deputy Commissioner admits that the Municipality has to depend only on these arrear collections for the repayment of the loan and

NOTE—Contn Sheet

WD 03594—GPB—80,000—13-7-35

File No of 193 .

156) From the note dated 27th August 1935 it will be seen that the Municipality is not in a position to meet the maintenance charges of water supply and the repayment charges of the Government loan

157) It is safer financially to take up this work after the financial condition of the Municipality improves -- by the levy of octroi and collection of arrears-and it is really found to be able to meet the recurring expenditure which this scheme involves Until the Municipal financial condition improves, we will be courting trouble for ourselves and for the Municipality by sanctioning this work

158) It is proposed to levy interest at 5% per annum on the loan The rate of interest at which such loans should be granted must be at least 5½% which is the average rate of interest we pay on our borrowings The Municipality has to pay only about Rs 30 more per annum if the rate is at 5½% which is a small amount to it But to Government it will save an inconvenient precedent I would therefore suggest this rate being mentioned

159) The provision of Rs 2 lakhs made in the current year's Budget for grant of loans to Local Bodies is insufficient to meet this charge. The Comptroller has addressed Government for an additional grant of Rs 6 lakhs to meet the loans already sanctioned for certain works

Kunigal water supply Scheme 1935

16th August 1933. xxx

Sir,

With reference to correspondence ending with letter No.A.3.C.3142 dated 19th July 1933, regarding the scheme of water supply to Kunigal Town, I am directed to request you to kindly furnish information on the following points :-

(1) How the Municipal Council proposes to meet the maintenance charges of the scheme amounting to Rs.2,000/- a year;

(ii) Whether the present charge of Rs.1,080/- a year incurred by the Municipal Council on account of maintenance of water supply will cease, when the project in question is completed;

As regards the loan of Rs.8,000/- required by the Municipal Council, the annual payment towards the discharge of the loan, if it is made repayable in 20 annual equated payments, would have to be about

Rs.598/-

Rs.588/-. The budget of the Municipality indicates that there will be an annual surplus of about Rs.350 and the Municipal Council will have therefore to find a further sum of at least Rs.250/- annually for discharging the loan. I am to enquire how the Municipal Council propose to meet this amount.

I have the honour to be,

S i r,

Your most obedient servant,

for Secretary to Government,

G R S 24 DADCD

...erence to Memo NO. A6.C. 3142/32-33 dated the 22nd ... ...g copy of letter from Government calling for information on certain points regarding the question of Water Supply to Kunigal Town, I beg to state as follows:-

The amount of Rs. 2000/- is the annual charge of maintenance as provided in the estimate furnished by the Executive Sanitary Engineer. Against this amount the Municipal Council have provided only a sum of - Rs. 1080/- under the head E 9 Water Supply and maintenance charges as per details specified in the margin*. This latter sum was arrived at on the basis of the working charges actually incurred by the - Municipal Council in respect of temporary water supply arrangements which continued in the Town for a period of about 8 months (from November 1931 to end of June 1932) the pump working from six to seven hours every day. The Municipal Council were of opinion that a similar arrangement at a moderate cost would be sufficient. But if provision has to be made for the full amount of Rs 2,000/- the extra cost may be met from the marginally* noted sources of income. Steps for obtaining sanction to all these items are in progress and will be pushed through.

Pay for one machanic at Rs. 30/- per mensem.	Rs 360/-
Pay for one helper at Rs 10 per month.	120/
Crude oil, petrol lubricating oil etc at Rs 50/- per month.	600/-
Total Rs.	1080/-

*

1.	Excess income annually expected from Octroi due to the levy of Octroi duty on certain new items and to the enhancement of octroi duty on tobacco.	Rs 500/- per year.
2.	Annual income from water tax at 25 per cent on house tax (the latter now amounting to Rs. 3000.	750/- ✓ per year.
3.	Annual income from slaughter house proposed to be constructed.	150/- per year.
	Total Rs.	1400/- per year.

As regards para (ii) no charge is now incurred for water supply, the temporary arrangement that had been made having ceased since more than a year, as the water that was being pumped (which was from bore-well No.1) was brakish and was not of much use. The provision made in the budget now is meant for the proposed fresh water supply from -

from bore-well No. II (according to the present scheme).

With regard to the quest

No.A6.C.3142/32.

Enc

Office of the Deputy Commissioner,
Tumkur District.
Dated,Tumkur, the,2nd February'35.

From

T.Abdul Khadir, Esquire, B.A.,
Deputy Commissioner,
Tumkur District.

To

M. Venkataramappa, Esquire, B.A.,
Secretary to the Government of Mysore,
Development Dept., Bangalore.

Sir,

Adverting to your letter No.L.2618/M.304-32 dated 5th October 1934 calling for a report re: the capacity of the Kunigal Town Municipal Council to raise funds for meeting the loan instalment charges in connection with the water supply scheme to the town, I have the honor to state as follows.-

2. The closing balance of the Municipality has no doubt fallen below the prescribed minimum since the year 1930-31. But the amount at its credit in Fixed Deposits now is Rs. 5,000/-.

3. The Municipality has spent large sums on sinking three bore-wells at a cost of Rs.2350/- formation of an extension at a cost of Rs.1200/- and formation of a shandy maidan at a cost of Rs.3233/-(including the cost of the acquisition). It is expected that a sum of Rs.1500/- would be realised by the sale of the sites in the new extension. The income from the shandy is estimated at Rs.2500/- per year (calculated on the basis of the actual realisations for the year 1933-34 and the several improvements made to the shandy maidan to increase its income). This will be earmarked for the repayment of the loan. The Municipal Council have framed bye-laws for Octroi, Slaughter house, Daily market and mutton stall and all these have been submitted to Government for sanction. They have proposed the levy of octroi on certain new items, which it is reported will fetch nearly Rs.500/- per year.

72

It is stated that the levy of water tax is under the consideration of the Municipality and as soon as the water supply scheme is finished, the Municipal Council will be advised to take measures for the levy of the same. The income from this source is estimated at Rs.750/- per year (calculated at 25% of the mohatarfa tax).

In the above circumstances the Municipality is in a position to pay the loan instalment and the maintenance charges amounting to Rs. 3,000/- in the aggregate. I therefore request that the loan may be sanctioned very early so that the scheme may be - completed and adequate water supplied to the town specially in view of the approaching hot weather.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District.

The Deputy Commissioner,

Tumkur District,

Tumkur.

Sir,

With reference to the correspondence ending with your letter No.A6.C.3142/32 dated 2nd February 1935 stating in connection with the proposed scheme of water supply to the town, that the Municipality is in a position to pay the instalments towards the loan asked for and also the maintenance charges amounting to Rs.3000/- in the aggregate, I am directed to state that it is seen from the sanctioned budget estimates of the Municipality for 1934-35 that the ~~nominal~~ normal income and expenditure of the Municipality for 1934-35 are estimated at Rs.14,353 and Rs.14,255 respectively, leaving ~~particularly~~ practically no margin for extra expenditure. While estimating the normal income, the tax on buildings and ~~lands~~ is taken as Rs.4500/- against the annual demand of only Rs.2640/- (taking into account arrear collections of about Rs.1500/-) and that the income from tolls is taken as Rs.7400/- (taking into account arrear collections to the extent of Rs.1000/-). If the arrear collections are excluded, the normal income will not be sufficient for meeting the normal expenditure and the shardy collections expected to be realised (about Rs.2500/- per annum) or a major portion of the same will have to be utilised for meeting normal expenditure. Further the total extra revenue expected

under octroi and water tax will be only about Rs.1200/- and this, even if supplemented by a small portion of the shandy realisations, will not be sufficient to meet the payment on account of principal and interest on the loan and the maintenance charges (aggregating Rs.3000/-)

4. Under the circumstances stated above, it appears that the municipality is at present not able to finance the scheme of water supply. I am to request you to examine the matter again and forward a further report on the points referred to above.

I have, etc.,

For Secty. to Govt.
Dev. Department.

Subject.- Water supply to Kunigal Town.

Sir,

Adverting to your letter No.L.6895/M1.304-32-12 dated 3rd April 1935 calling for certain particulars regarding the above, I have the honor to state as follows.-

A kind perusal of the Budget Estimates for 1935-1936 would show that the total receipts and expenditure amount to Rs.21,943 and Rs.14,542 respectively leaving a balance of Rs.7,401/-. The normal income is estimated at Rs.14,086/- and the expenditure at Rs.10,642. This gives a clear balance of Rs.3,444/- leaving out of account., the special receipts and expenditure . The arrears under "Octroi on buildings and lands are Rs.9,813/-. The Municipal Council has been advised to appoint a whole time Bill Collector to expedite the recovery of the heavy balance outstanding. This arrangement will facilitate the collection of the arrears noted above which by itself would meet the obligation of the council re: repayment of the annual instalment of Rs.1000 together with the maintenance charges of Rs.2,000/- for at least 3 years. By this time the question of levy of octroi on certain new items and levy of the water tax will have been settled and the council will derive an additional income of Rs.1,250/-which is not now included in the budget.

78)

Moreover the council has an investment of Rs.5,000/- in fixed deposit which is always available for meeting its obligations even if there should arise any unforeseen - contingency. The above details of the financial position of the Municipal Council make it clear that there is no anxiety about the repayment of the loan and meeting the annual maintenance charges.

As regards the ability of the Municipal Council to finance the starting of the scheme, the Government have sanctioned a grant of Rs.1,500/- and the loan of Rs.8,000/- now applied for, if sanctioned, would amount to Rs.9,500/-. This will be supplemented by withdrawing Rs.1000/- from the fixed deposit and Rs.500/- from the closing balance to make up the total estimated cost of Rs.11,000/-.

I am therefore of opinion that the Municipality is able to finance the scheme, re-pay the loan and meet the - maintenance charges.

I have the honor to be,
sir,
Your most obedient servant,

M. N Ramachar

For Deputy Commissioner,
Tumkur District.

79)

Dear Sir

With reference to your letter No A 6. C 31427/32 dt 10/8/35 regarding the Water Supply scheme to Kennigal town, I am desired to state that a doubt is still felt as to the capacity of the Municipality to meet the annual maintenance charges and the loan instalments interest payable to Govt after providing for the normal demands, and to enquire whether the whole of the Local deposit ~~of Rs 15000~~ held to the credit of Municipality, utilised towards the share of the cost of the scheme, instead of only Rs 1000 as now proposed. If this is done, the loan to be taken from Govt will be reduced to Rs 40000/ and the annual payment towards the discharge of this loan will be correspondingly reduced.

This aspect of the question may be examined & a reply sent as soon as possible.

Yours sincerely

Dear sir,

With reference to your letter No. A.6 C.3142/32 dated 10th August 1935 regarding the financing of the water supply scheme to Kunigal town, I am desired to enquire whether the whole of the fixed deposit held by the Municipal Council may not be withdrawn and utilised towards the Municipality's share of the cost of the scheme, instead of only Rs.1,000 as now proposed. If this is done, the loan to be taken from Government will be reduced to Rs.4,000 or even less and the annual payment towards the discharge of this loan will be correspondingly reduced.

This aspect of the question may be examined and a reply sent as soon as possible.

Yours sincerely,

SIR,

Adverting to your D.O. letter No.L.1827/III.304-32-14 dated 7-9-1935 enquiring whether the whole of the fixed deposit amount may not be withdrawn and utilised towards the Municipalities share of cost in connection with the Water Supply Scheme, Gunigal, I have the honor to state that according to the resolution of the Municipal Council, dated 25-1-1934, the Municipal Council have out of their savings invested Rs.5,000/- in the 5½% Fixed Deposit Account repayable in 1938 and Rs.1000/- in the Current Deposit Account, the latter being earmarked for the water supply scheme. In view of this and of the fact already explained in my letter of even number dated 10-8-1935 viz that the fixed deposit will be useful for meeting any unforeseen contingency in future, it may kindly be allowed to remain in the Fixed Deposits. I request that the loan of Rs.8000/- may kindly be sanctioned at an early date.

I have the honor to be,
SIR,
Your most obedient servant,

Deputy Commissioner,
Tumkur District.
